EDUCATION

NED University of Science and Technology, Karachi — MSIS

Master of Science – Information Security

Karachi, Pakistan

Bahria University, Karachi — BSCS

Bachelor of Science in Computer Science

Karachi, Pakistan

WORK EXPERIENCE

TECHLOGIX, Karachi -Principal Software Engineer

Sep 2025 - Ongoing

TECHLOGIX, Karachi -Senior Software Engineer

Aug 2023 - Sep 2025

TECHLOGIX, Karachi -Software Engineer

Aug 2021 - Aug 2023

- Led development of full-stack product features using React, Next.js, TypeScript, Tailwind CSS, NestJS, and OpenAI APIs, owning user stories from technical design through frontend and backend implementation.
- Built product features for a global expansion platform using React and TypeScript within a micro-frontend architecture, contributing across payroll and other complex business modules.
- Designed and shipped 50+ responsive frontend features from business requirements using React, TypeScript, JavaScript, Tailwind CSS, and SCSS, building reusable UI components and ensuring cross-browser compatibility.
- Built generative AI and LLM-powered workflows for complex requests and document processing, improving automation and data-handling capabilities.
- Developed comprehensive unit tests using Jest, Enzyme, and React Testing Library, increasing frontend test coverage to approximately 85%.
- Developed C#/.NET backend services and led the migration of 100 legacy .NET Framework web services to RESTful .NET APIs.

UPBEATER - Founding Engineer (Part-time / Startup)

Sep 2025 - Ongoing

- Built an AI-powered Human-AI Workforce Platform, working directly with the founding team to turn early-stage product ideas and user feedback into production features.
- Own frontend architecture and development across AI-assisted marketing, content, sales, outreach, reporting, and admin workflows using React, TypeScript, Tailwind CSS, and reusable component patterns.
- Work across React, C#/.NET APIs, PostgreSQL, LLM integrations, and social-platform integrations to independently ship and iterate on full-stack product experiences.
- Contribute to technical architecture and product decisions from requirements through implementation, testing, deployment, and production iteration.

TECHNEXIA, Karachi – Executive Software Developer

Dec 2020 - Aug 2021

- Built and optimized 20+ web APIs and applications using ASP.NET MVC, Entity Framework, SQL Server, and JavaScript, including database design, stored procedures, functions, and triggers.
- Designed a Microsoft Azure DevOps database architecture solution for a US-based client, improving application performance through a regional database setup.

PIXCILE TECHNOLOGIES - Software Engineer

Jul 2019 - Nov 2019

- Started development career here with Microsoft technologies like C#, ASP.NET, SQL and JavaScript.

PROJECTS

TERRA – AI Developer Productivity Platform (2024) 1st-place project at Techlogix's AI Hackathon. Built an intelligent developer assistant using LLMs, RAG, and AI-driven automation to integrate task management, development workflows, and centralized knowledge access.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript, Next.js, Redux Toolkit, Tailwind CSS, SCSS, HTML5, Responsive Design

Backend & Database: Node.js, NestJS, C#, .NET, ASP.NET, PostgreSQL, SQL Server, REST APIs

AI: OpenAI APIs, LLM Integrations, Generative AI, RAG

Testing: Jest, React Testing Library, Enzyme, SonarQube

Cloud & DevOps: Azure DevOps, CI/CD, Vercel, GitHub Actions

CORE COMPETENCIES

Frontend Architecture | Full-Stack Development | Technical Leadership | Product Ownership | Code Reviews | Automated Testing | Stakeholder Collaboration | AI-Assisted Development
